- Simple and intuitive operation via color 4.3-inch touch screen
- All-in-one execution (micro bath, dry block, black body)
- Trend graph display with a resolution of up to 0.1°C and selection of the time period
- Program function with up to 8 segments
- Selectable operating language: German, English, French, Spanish or Italian
- RS485 ModBus RTU communications
- Magnetic stirrer, adjustable via touch screen
- Recalibration of the internal Pt 100 reference sensor possible via touch screen at 8 calibration temperature points

**LR-Cal**

**LR**

The portable temperature calibration micro baths **LR-Cal LTC 150-F**, **LR-Cal LTC 150-F-PLUS** and **LR-Cal LTC 250-F** serve as a temperature source and reference device in one, for the testing, adjustment and calibration of all types of temperature measuring devices. They are also particularly suitable for laboratory and glass thermometers and temperature sensors with e.g. 90° bends. With optional calibration bath inserts code **LTC-F-INSERT-FL** make changing the operating fluid considerably easier, e.g. if you often change the medium due to temperature.

### Options and accessories

Order-Code: **DKD-T-KAL-TK-6T**  
 DAkkS certificate of calibration (instead of factory certificate)

Order-Code: **LTC-F-KOFFER**  
 Sturdy aluminum case (trolley) with fixed foam inserts,  
 with wheels and extendable handle

As SPARE PART:  
 Order-Code: **LTC-F-DECKEL-05** for micro bath insert  
 Tank lid made in transparent methacrylate.  
 With 5 drillings for units under test plus 1 center drilling for an external reference probe, can be used also with 6 items under test.  
 This accessory supports easy fixing of units under test and avoids temperature drops, caused by open reservoir.
